Acknowledgement of assistance

The 2014 EES voter study was funded by a consortium of private foundations under the leadership of Volkswagen Foundation (the other partners are: Riksbankens Jubileumsfond, Stiftung Mercator, Fundação Calouste Gulbenkian). It profited enormously from synergies that emerged from the co-operation with the post-election survey funded by the European Parliament. Last but certainly not least, it benefited from the generous support of TNS Opinion who did the fieldwork in all the 28 member countries. The study would not have been possible without the help of many colleagues, both members of the EES team and country experts from the wider academic community, who spent valuable time on the questionnaire and study preparation, often at very short notice. We would like to acknowledge their work here and thank them warmly, for without their assistance the EES 2014 would certainly be of lesser quality.

Version history

The second release of the data bring the following corrections

1. The items of qpp19 battery were added for France and Wallonia. Unfortunately, due to an error in development of the English language master questionnaire the items will not be made available for the other countries. To be more specific the original question wording was changed from :*“And about where would you place the following parties on this scale? How about the (Party X)? Which number from 0 to 10, where 0 means “[European integration has] already gone too far” and 10 means “[European integration] should be pushed further” best describes [Party X]?”* to *“And about where would you place the following political parties on this scale from 0 to 10, where '0' means the **political party** "has already gone too far “[with European integration]" and '10' means it "should be pushed further"?”* What number on this scale best describes [Party X]?”. Adding **“political party”** to the original question wording altered the meaning of the question making it impossible to accurately capture the perception of the respondents regarding the placement of the parties on the pro-anti EU axis of political competition. As a partial remedy for this issue both the original and the modified question wording were added to a new survey fielded in March 2015. The data yielded by the EES 2014 Voter Study, Second Post-Electoral Study is available for download from the following link: <http://dx.doi.org/10.4232/1.5161>.
2. The “objective” positions of parties on the left-right axis, computed as the mean perceived party positions based on all valid placements of respondents (i.e. item qpp14_px from **EES 2014 Voter Study, First Post-Electoral Study**) was added to the database, see items qpp14_mean_px
3. The “objective” positions of parties on the pro-anti EU axis computed as the mean perceived party positions based on all valid placements of respondents (i.e. item qpp19_px from **EES 2014 Voter Study, Second Post-Electoral Study**), was added to the database, see items qpp19_mean_px
4. The code of the cdH (Centre Democrate Humaniste) Humanist Democratic Centre was corrected in qp2_emcs, qp2_ees, qp5_ees, qp6_ees and qp21_ees. The correct code for qp2_emcs is 21522 (previous code was 21910). The correct code for qp2_ees, qp5_ees, qp6_ees qp21_ees 1056522 (previous code was 1056222)

Structure of the data file

Variable names

The data file consists of four sets of variables distinguished by the characters **qp**, **qpp**, **d**, **p** and **w**.

The **p** variables describe the interview protocol: e.g. date of the interview, time of the beginning of the interview, number of minutes the interview lasted, number of persons present during the interview, respondent cooperation, language on interview, region where interview took place, size of locality. The variable order and –numbering reflect that of the 2014 questionnaire.

qp and **qpp** variables comprise the interview questions, with the important distinction that the **qp** questions were commissioned by the European Parliament and the **qpp** questions were commissioned by the EES team. Both variable order and –numbering reflect that of the 2014 questionnaire.

d variables represent the socio-demographic variables provided by TNS-opinion. The variable order and –numbering reflect that of the 2014 questionnaire.

w variables are additional variables, based either on additional information from the fieldwork agency, or derived on the basis of questionnaire variables. The weighting variables with a name ending in “pol” are based on both standard and political weighting factors: gender x age, urbanization, region (Nuts), turnout European Elections and results European Elections by party. The weighting variables without a name ending in “pol” are based on the standard weighting factors: gender x age, urbanization and region (Nuts). (see Appendix 4 for a complete description of the weighting variables).

Missing Values

All **qp**, **qpp** and **d** variables follow an identical missing values labeling scheme.

-9: Don't Know [DK]

-8: Refused [REF]

-7: System missing

For the **qpp8** and **qpp14** batteries we added:

-99: Do not know the party

In addition, a number of variables (e.g., vote choice) have additional missing value labels within this range. Where relevant, consistent labeling has been implemented. Please note that *no* missing values have been defined in the data file, so it is up to the researcher to decide how to deal with various causes of missing data.

Where possible, the original question codes have been maintained as subfixes.

Missing values are not country specific.

The original vote choice questions are: qp2 (vote choice in the 2014 EP elections), qpp5 (vote choice in previous national elections) and qpp6 (vote intention), while the original party ID question is qpp21. Based on these variables we computed a new set of variables (qp2_ees, qpp5_ees, qpp6_ees and qpp21_ees) assigning unique values that correspond to the European Parliament Election Study 2009, Voter Study, in case the parties were not included in the 2009 study we assigned a new code. Additionally qp2_emcs was computed to reflect the coding system used by the Euromanifesto Project.

A special case forms the questions regarding the original placement of parties along the left-right continuum (qpp14_), and the probability to vote questions (qpp8_). For these variables, not the answer options, but the actual questions vary by country. For these three sets of questions, the specific party probed is described in these release notes (see below).

We note that the order of these party-questions is identical for all three questions (i.e., qpp8_1 probes the same party as qpp14_1, for each country) and is identical to the order used in the original country questionnaires. A list, containing party probed (per variable), as well as the corresponding party codes (used in the vote choice and party ID questions), is provided for the user's convenience (see below, Appendix 1: EES 2014 party codes and variables).

Questions qppp1 and qppp2 although present in the master questionnaire were not fielded.

We encourage users of the data to contact us should they spot any errors or anomalies in the data via email at Sebastian.Popa@mzes.uni-mannheim.de (Sebastian Popa).

Variable Specific notes

The following is a description of those variables where additional information may be required.

qp10_x: Media outlets watched (prompted)

Each variable (qp10_1 to qp10_3) prompts for the following outlet

Country	QP10	Newspapers
Austria	QP10	1 Der Standard 2 Die Presse 3 Neue Kronen Zeitung
Belgium-Flanders	QP10	1 De Morgen 2 De Standard 3 Het Laatste Nieuws
Belgium-Wallonia	QP10	1 La Derniere Heure 2 La Libre Belgique 3 Le Soir
Bulgaria	QP10	1 24 часа 2 Дневник 3 Труд
Croatia	QP10	1 Jutarnji List 2 24sata 3 Večernji list
Cyprus	QP10	1 Χαραυγή 2 Φιλελεύθερος 3 Σημερινή
Czech Republic	QP10	1 Blesk 2 Mladá Fronta 3 Právo
Denmark	QP10	1 Ekstra Bladet 2 Morgenavisen Jyllandsposten 3 Politiken
Estonia	QP10	1 Eesti Ekspress 2 Postimees 3 SL Õhtuleht
Finland	QP10	1 Aamulehti 2 Helsingin Sanomat 3 Ilta-Sanomat
France	QP10	1 Le Figaro 2 Le Monde 3 Libération
Germany	QP10	1 Bild 2 Frankfurter Allgemeine Zeitung (FAZ) 3 Süddeutsche Zeitung (SZ)
Greece	QP10	1 Εφημερίδα των Συντακτών 2 Καθημερινή 3 Τα Νέα

Hungary	QP10	1 Blikk 2 Magyar Nemzet 3 Népszabadság
Ireland	QP10	1 Irish Independent 2 The Irish Times
Italy	QP10	1 Il Corriere della Sera 2 Il Giornale 3 La Repubblica
Latvia	QP10	1 Diena 2 Latvijas Avize 3 Vesti segodnya
Lithuania	QP10	1 Lietuvos rytas 2 Respublika 3 Vakaro žinios
Luxembourg	QP10	1 Tageblatt 2 Luxemburger Wort

Romania	QP10	1 Evenimentul Zilei 2 Jurnalul National 3 Libertatea
Slovakia	QP10	1 Denník Pravda 2 Denník Nový čas 3 Denník SME
Slovenia	QP10	1 Dnevnik 2 Slovenske novice 3 Delo
Spain	QP10	1 ABC 2 El Mundo 3 El País
Sweden	QP10	1 Aftonbladet 2 Dagens Nyheter 3 Svenska Dagbladet
United Kingdom	QP10	1 Guardian 2 Sun 3 The Daily Telegraph

Qp2, qpp5 and qpp6-- Party Choice

Questions **qp2**, **qpp5** and **qpp6**-- ask for EU and national party choice – the answer options (parties) vary per country. Country specific codes have been recoded and now start with a country prefix (1+ISO) followed by a specific code per party, see variables **qp2_ees**, **qp2_emcs**, **qpp5_ees** and **qpp6_ees**. Labels for **qp2_ees**, **qp2_emcs**, **qpp5_ees** and **qpp6_ees** are included in the integrated data file. See the bellow spreadsheet (i.e Appendix 1: EES 2014 party codes and variables) for the for the party names and codes used in these questions, as well as questions qpp8, qpp14 and qpp21.

Please note that in **Belgium** the 2014 EP elections we concurrent with national parliament elections. **Qpp5** therefore asks what R voted in the concurrent national election.

Qpp8_pxx, qpp14_pxx, qpp19_pxx,

Qpp8_pxx (probability to vote), qpp14_pxx (left-right placement), qpp19_pxx (pro-anti EU placements only available in France and Wallonia): each questions probes one specific party. The party probed is documented bellow.

The suffixes (_pxx) are consistent for the two blocs of questions, and are identical to those used in the original language questionnaires

Note that order of the parties is fixed, and identical to that used in the original language questionnaire. The starting point of the rotation (first question asked) varies per respondent and question bloc.

Qpp23 Political knowledge questions.

To ease analysis (and avoid possible embarrassment), the correct answers are:

qpp23_1: False (2)

qpp23_2: False (2)

qpp23_3: False (2)

qpp23_4: True (1);

Note for qpp23_4. In the case of Bulgaria Prime Minister Plamen Oreschanski was independent but previously a member of the Bulgarian Socialist Party and also nominated by the same party, hence the correct response in this case is unclear.

See Appendix 2 for the number of seats used in qpp23_4 and the name and party of PM used in qpp23_4.

Qpp23 Candidate recognition battery.

To ease analysis (and avoid possible embarrassment), the correct answers are:

qpp24_1: European People's Party\ (NATIONAL PARTY) (2)

qpp24_2: Socialists & Democrats\ (NATIONAL PARTY) (1)

qpp24_3: Liberals and Allies Group\ (NATIONAL PARTY) (3)

See Appendix for the complete list of national parties used in qpp24
